

# IFEGarment Processing & Specialist Solutions

Within IFE Global Logistics the recognised core value is **Our Client**, with a vital part of any Supply Chain being the final delivery.

IFE Global have a strategically assembled team of professionals focusing specifically on the retail sector and are proud to project this further by offering the following specialist solutions and services.

Whether it's in China, South East Asia, Bangladesh, India or the UK, IFE Global caters for the Retail Sector by in turn offering an array of **Garment Processing & Specialist Solutions**.

IFE Global handles pre-retail garments at Origin in liaison with its client's local suppliers. We are able to source specific solutions to keep up with the demanding needs of the retail market. This is just one of the many versatile services available to our clients.

Upon arrival into the UK and through modern purpose built sites, IFE GOH (Garment on Hanger) & processing solutions can process and handle up to and in excess of 250'000 Garments each and every week.

IFE work with and can call upon an elite team of specialists and retail technicians all of which are devoted to the highest levels of quality and performance, this ensures perfection and that our high standards are maintained throughout the total process.

Working with our clients to understand their requirements makes for a seamless relationship as we ascertain each and every client on a truly individual basis.
