

IFE eCommerce & Specialist Solutions

IFE enables clients to increase service levels and reduce costs through its new service specifically for eCommerce sellers and online retailers.

eCommerce has been a huge area for growth for many of our clients, with online UK sales increasing by 12% last year, and up 17% globally; however eCommerce has also increased supply chain complexity.

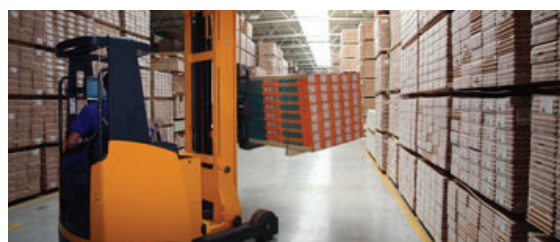

A Simpler Solution

IFE Global Logistics has recognised the need for a simpler solution and is now able to offer a complete service for global and UK eCommerce businesses; managing their logistics from manufacturer right to the customer’s door, not just from port-to-port.

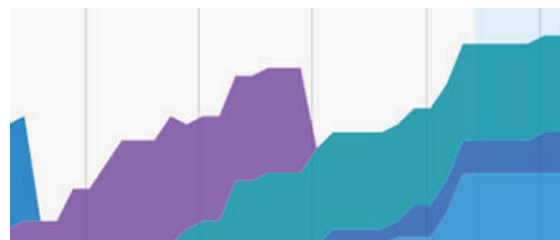

Focused eCommerce Specialist

IFE Global work with and call upon an elite team of eCommerce specialists completely focused on delivering the highest levels of quality, breadth of service and a same day turnaround; thus enabling online retailers to offer their customers an outstanding service to the high standards that form part of the IFE Value Added Solutions portfolio.

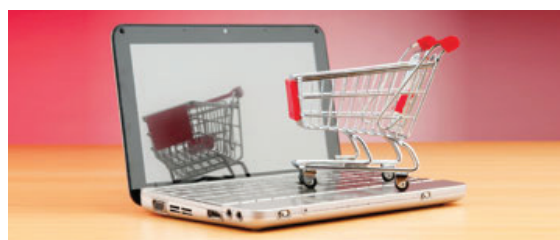

Dedicated Warehousing Facility

IFE Global is proud to offer a state of the art dedicated warehousing facility for this exact purpose, with logistics management systems linked in real time to our clients eCommerce stores and sales channels.

Increase Sales

Working with our clients to understand their requirements, we make it possible for them to improve their business operation whilst reducing costs and more importantly, give them the resources to increase their sales.

Looking to start selling online?

If you are looking to start selling online We can help. As part of our service we can set up and design E-Shops to bolt onto your existing website. Not only that but we can also integrate our Warehouse Management Software interface to strengthen with your commerce capabilities.
